Automatically transfers essential tax data into your return for greater ease and accuracy

- TurboTax 2011 eliminates more manual data entry than before, easily and automatically transferring:
 - Wage, salary, investment and mortgage information – the same data the IRS receives – from more than 400,000 employers, banks, financial institutions and credit unions.
 - Interest income from financial institutions, banks and credit unions by connecting with customers' Mint.com accounts.

Free Audit Support

- Audit Risk Meter identifies common audit triggers – like a home office and rental property – and provides actionable guidance to help reduce your audit risk before you file.
- Free Downloadable Audit Support Center provides step-by-step guidance on everything you need to know in the unlikely event that you are contacted by the IRS.

No faster way to get your refund

- IRS electronic filing is the fastest, easiest way for taxpayers to receive their federal refunds, in as little as seven days with direct deposit.
- You can also choose to put all or part of your refund on a [TurboTax Prepaid Visa® Card](#). This is an easy option for Americans who do not have bank accounts.
- With TurboTax, you can deposit your refund in up to three accounts. You can also use all or part of your federal tax refund to purchase U.S. Savings Bonds, either for yourself or as a gift for a child or grandchild.
- With MyTaxRefund, a free and easy app for you to check the status of your federal and state tax returns from your iPhone or Android.
